

AUNTSFIELD  
NEW ZEALAND

# Hawk Hill

PINOT NOIR 2020

Auntsfield continues the proud heritage of Marlborough's first vineyard and winery established in 1873.

Our Single Block wines display qualities distinctive to grapes grown within a defined area at Auntsfield Estate. Consistent quality and character over many vintages has separated these single blocks out as producing our Reserve Wines.

Hawk Hill Pinot Noir – This small 1 hectare block at the eastern end of Main slopes is situated at the highest elevated corner of the vineyard. It has a unique soil made up of dense Loess over solid crushed Greywacke rock.

## TASTING NOTES

---

**COLOUR:** Deep red colour

**AROMA:** Splendidly fruited, the immensely complex bouquet reveals Black Doris plum, dark cherry, floral thyme with nuances of dark mushroom and toasted spice

**PALATE:** The palate exhibits outstanding concentration and persistency, superbly complemented by silky texture and velvety tannins. Multi-layered, elegant and sophisticated.

**ANALYSIS:** Alc. 14.0% | 3.58 pH | 5.5 TA

## WINEMAKERS NOTES

---

The fruit for this wine was hand-picked into small baskets then carefully and diligently hand sorted to ensure that no less than perfect fruit entered the winery. This fruit was then gently destemmed and moved to tank by gravity. A combination of indigenous and cultured yeasts was nurtured through fermentation in open topped tanks. Careful use of hand plunging was used to gently extract the flavours and tannins from the skins. Maturation occurred in French barriques for approximately 15 months.

## VITICULTURALISTS NOTES

---

Vigour and fertility in this block is very low resulting from the dense Loess Clay and the lack of top soil. Vines are exposed to the strong hillside winds reducing shoot length and reducing berry size. These vines are spur pruned, then extensively shoot thinned and leaf plucked by hand to retain 18 small bunches per vine. The main slope block contributes earthy, dense, rich, ripe and savoury characters result from the high mineral Loess Clay soils the vines grow in.
